## News Feeds Display:

- On the right-hand side of the webpage, you'll see the news items displayed in a chronological order.
- Each news item includes a title, content, published date, tagged category, source, link to the original news and links to similar news from different sources.
- Categories are displayed as text within each news item.
- Above the news items, a dropdown menu allows you to filter news items by category.

### Channel boat deaths prompt fresh anger over asylum policy

At least six people died after a small boat crossing the Channel capsized and sank. Another two people are still believed to be missing after the sinking. Activists call for more safe and legal routes for asylum seekers to prevent further tragedies. The government's controversial asylum policy faced renewed criticism on Saturday.

The webpage provides a filtering feature to display news items based on the selected category.

By default, the menu displays "All," which shows all news items regardless of category.

The screenshot shows a web browser displaying a news feed. At the top, there is a dropdown menu with 'All' selected, circled in red. Below the menu, the news items are listed in a table-like format. The first item is titled 'Channel boat deaths prompt fresh anger over asylum policy' and includes details about the sinking of a small boat in the Channel. The second item is titled 'Tony Blair Institute continued taking money from Saudi Arabia after Khashoggi murder' and discusses the institute's funding. The third item is titled 'England hit back to beat Colombia and set up World Cup semi with Australia' and mentions the football match. The browser's address bar shows the URL '142.93.42.80/2023-08-13%2003.php'.
